**Brazil-Canada Capital Markets & Mining**  
**Financing Breakfast**  
**Metro Toronto Convention Centre | North Building**

## WELCOME

The Brazil-Canada Chamber of Commerce (BCCC) is proud to announce the 16th Edition of the Brazil-Canada Conference at PDAC 2022, taking place in Toronto during the 2022 PDAC Convention, which includes a series of events focused on the Brazilian mineral exploration and mining industries and will be held between June 13th and June 15th, 2022.

The Prospectors & Developers Association of Canada (PDAC) represents the interests of the Canadian mineral exploration and development industry and is responsible for organizing the International Convention, Trade Show & Investors Exchange - Mining Investment Show in Toronto, ON, Canada. The PDAC Convention is considered the meeting point of the world's mineral exploration industry, drawing investors, mining executives and government officials from over 132 countries. After a fully virtual conference held in 2021, we presented a new hybrid format and will welcome everyone back to Toronto for the 90th Annual PDAC Convention.

On Monday, June 13th, the 16th Edition of the Brazil-Canada Conference at PDAC 2022 series of events will bring back the already traditional Brazil-Canada Mining Breakfast, hosted in partnership with Cescon Barrieu and the Toronto Stock Exchange and TSX Venture Exchange, followed by the Brazil-Canada Mining Insights Luncheon. The series of events will also include the Brazil-Canada Exclusive Capital Markets Roundtable, taking place on Tuesday, June 14th, in partnership with Baker McKenzie.

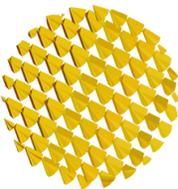

This year's program also included the 2nd Brazil-Canada Virtual Conference at PDAC 2022, which had brought a series of important discussions on Regulatory Framework, Capital Markets, ESG, Diversity and Inclusion, Exploration, Smart Mining & Innovation, Mining Financing, among others. With the in person conference being postponed to June, the BCCC had decided to keep the momentum and present the 2nd Brazil-Canada Virtual Conference at PDAC 2022 in a series of webinars which took place every other week from March 7th until May 31st, offering even more brand visibility and exposure to our sponsors, partners and speakers.

Brazil is once again a Country Sponsor of the 90th PDAC Conference 2022 and the BCCC is working in partnership with the Organizing Committee of Brazil at PDAC 2022 led by ADIMB to provide a full program and an even deeper analysis of the trends and opportunities in the Brazilian mineral sector, supporting the discussions during the Brazilian Mining Day, which will be focused on investment opportunities, business attraction and regulatory changes in the Brazilian mining and mineral exploration sector. We will also introduce the newly created Invest in Mining Brazil, a collaborative network with the main objective of connecting the Brazilian capital markets with the mining sector, aiming to foster investments for exploration projects and junior companies in Brazil.

The Brazil-Canada Conference at PDAC has become a must-attend event for everyone interested in understanding the current trends and opportunities of the Brazilian mineral exploration and mining industries. The high profiles of our speakers, discussions and attendees have certainly been the key success factor of our event, which through their networking power have been the starting point of many successful transactions over the years.

Please find our program and sponsorship package attached. We would be pleased to follow up with you and answer any questions you may have.

We look forward to having your company participating in the 16th edition of the Brazil-Canada Conference at PDAC 2022 and to welcome you to Toronto in June 2022.

## **June 13th | Brazil-Canada Breakfast**

### **PAULA AZEVEDO**

#### **Partner at Cescon Barrieu**

Represents domestic and foreign clients in mergers and acquisitions transactions and has advised them in relation to regulatory issues related to mining, involving the acquisition and sale of mining companies and mining rights, as well as in regulatory administrative procedures, which involve mining, energy, including in projects and undertakings related to mineral research, mines, dams, hydroelectric plants, railways, pipelines, transmission lines and industrial units.

She is known for her state of art knowledge in regulating the safety of mining tailings dams.

### **MARC DESORMEAUX**

#### **Senior Economist at Scotiabank**

Economist and policy analyst; have developed economic models for policymakers in Canada and the United Kingdom.

Experience with economic impact assessments, financial valuation, market research, competition policy analysis, program evaluations and strategy consulting.

### **ROBERT PETERMAN**

#### **Vice President, Global Business Development at TMX Group**

Robert Peterman is Vice-President, Global Business Development at Toronto Stock Exchange (TSX), TSX Venture Exchange (TSXV). He is responsible for domestic and international activities for TSX and TSXV across new corporate listings and Exchange Traded Funds and Products. His group also covers investor development activities for TSX and TSXV in Canada and abroad. Combined, the exchanges are home to over 3,400 public issuers. During 2022 over 400 companies or ETFs went public on TSX and TSXV and \$57B of equity capital was raised. Making TSX one of the largest exchanges in the world for raising equity capital and attracting corporate listings.

Robert completed his MBA at the Richard Ivey School of Business. Prior to working at TMX, Robert worked in Corporate Strategy for a subsidiary of Brookfield Asset Management. He was a member of the Ivey Entrepreneurship Council. Currently he is also a Director for SVX (Social Venture Exchange) formerly a joint venture between TMX Group and MARS.

## **MAKKO DEFILIPPO**

### **President at Ero Copper**

Mr. DeFilippo serves as the President of Ero Copper. Mr. DeFilippo joined the Company as Vice President, Corporate Development immediately following the acquisition of Mineração Caraíba S.A. and has been responsible for all corporate development and investor relations initiatives, including having supported the Company through its initial public offering in late 2017. Prior to joining Ero Copper, Mr. DeFilippo was Director, Corporate Finance within FTI Consulting Inc.'s Global Mining Advisory Practice where he advised mining companies and mining-focused private equity firms on acquisitions, divestitures and restructuring initiatives. Mr. DeFilippo holds a M.Sc. in Metallurgical Engineering from the Colorado School of Mines and a B.Sc. in Geological Engineering from the University of Arizona.

## **RANDY SMALLWOOD**

### **CEO at Wheaton Precious Metals**

Mr. Smallwood holds a geological engineering degree from the University of British Columbia and a mine engineering diploma from the British Columbia Institute of Technology. Mr. Smallwood was involved in the founding of Wheaton and in 2007, he joined Wheaton full time as Executive Vice President of Corporate Development, primarily focusing on growing the Company through the evaluation and acquisition of silver stream opportunities. In January 2010 he was appointed President, and in April 2011 he was appointed Wheaton's Chief Executive Officer. Mr. Smallwood originally started as an exploration geologist with Wheaton River Minerals Ltd., and in 2001 was promoted to Director of Project Development, his role through its 2005 merger with Goldcorp. Mr. Smallwood was an instrumental part of the team that built Wheaton River / Goldcorp into one of the largest, and more importantly, one of the most profitable gold companies in the world, and he is now focused on continuing to add to the impressive growth profile of Wheaton. Mr. Smallwood formerly served on the boards of Defiance Silver Corp. (formerly ValOro Resources Inc. and Geologix Explorations Inc.) from 2005 to 2019, Ventana Gold from 2008 to 2011, Castle Peak Resources from 2010 to 2012, and Tigray Resources Inc. from 2011 to 2014. Mr. Smallwood is also a board member of Special Olympics BC and Mining4Life, is co-chairman of MineralsEd BC, and previously served on the board of the BC Cancer Foundation. In 2015, Mr. Smallwood received the British Columbia Institute of Technology Distinguished Alumni Award, and in 2019, he received Business in Vancouver's BC CEO of the Year Award in the enterprise category. On September 3, 2020, Mr. Smallwood was appointed as the chair of the World Gold Council.

## **DARREN GORDON**

### **Managing Director & CEO at Centaurus Metals Limited**

Darren Gordon is a Chartered Accountant with over 25 years' experience as a senior resources executive, including extensive involvement in financing resource projects from both a debt and equity perspective. Mr Gordon has over 13 years' experience operating in Brazil and has a deep understanding of the regulatory framework and general operating environment needed to advance resource projects through development to production. This in-country expertise assists in guiding the Centaurus team in its development plans for the advanced Jaguar Nickel Sulphide Project in northern Brazil, where the Project's ESG credentials and the broader global transition to decarbonization are front of mind for the Company.

## **DASHNEE NAIDOO**

### **Executive Vice President Base Metals at Vale**

Deshnee is a mining executive with diverse experience, her multifunctional and multicommodity roles have spanned corporate and operational levels, across many geographies. Among her many personal and professional accomplishments, Deshnee is a three-time South Africa Mining Rainmaker, was recognized among the 100 Global Inspirational Women in Mining in 2018 and has served as a Board Member of the South Africa Minerals Council. Committed to creating more diverse and inclusive organizations, Deshnee led the Women in Mining initiative for the South African Minerals Council to achieve gender equality, with a goal of 30% women by 2025.

Prior to joining Vale, Deshnee was the CEO of the Zinc International business at Vedanta Resources from 2014 to 2020, where she held full P&L accountability for the international Zinc group and led its transformation and growth during this period to be recognised as a key global Zinc producer.

## **FLAVIO MOTA**

### **Chief of the Extractive and Base Industry Department at BNDES**

MHead of the Basic Industry Division at BNDES. Engineer graduated from the Fluminense Federal University/Brazil, with MBA in Finance from the Federal University of Rio de Janeiro/Brazil

## **PEDRO PAULO DIAS MESQUITA**

### **Secretary of Geology, Mining and Mineral Transformation for the Ministry of Mines and Energy of Brazil**

Mr. Pedro Paulo Dias Mesquita, Secretary of Geology, Mining and Mineral Transformation for the Ministry of Mines and Energy of Brazil, he has Master Degree in Public Policies, Strategies and Development from the Federal University of Rio de Janeiro (UFRJ) 2017, postgraduated in MBA Financial Management, Controllershship and Auditing from Getúlio Vargas Foundation (FGV-RJ) 2010, and graduated in Economics from Rio de Janeiro Federal University - UFRJ 2008. ## **KATIE SULLIVAN**

### **Global Managing Director at IETA**

Katie Sullivan holds nearly 20 years of experience in climate policy, strategy, finance, and markets. Katie serves as global Managing Director of the International Emissions Trading Association (IETA). For two decades, IETA's mission is to support high-integrity market solutions that tackle climate change and scale clean private capital. On behalf of IETA's 230+ multi-sector business members, Katie leads advocacy and strategic partnerships across the Americas and globally. She sits on the Steering Committee for the World Bank's Carbon Pricing Leadership Coalition and Boards of the Climate Action Reserve and the International CCS Knowledge Centre. Katie's also involved in multiple business start-up, non-profit and government climate advisory groups and expert panels. She has recently been recognized as a Clean16 award recipient for contributing to Clean Capitalism Advocacy and Leadership in Canada.

## **AIDAN DAVY**

### **Chief Operating Officer at ICMM**

Aidan Davy joined ICMM in June 2007. As COO, he is responsible for strategy development and implementation and lead the work to develop ICMM's Mining Principles, which define good practice environmental, social and governance requirements for the mining and metals industry. He also leads ICMM's work on environmental issues, including the management of issues relating to biodiversity, climate change, mine closure, tailings and water. Prior to assuming the role of COO in 2015, Aidan led ICMM's work on social and economic development, investor engagement and sustainability reporting.

Aidan has 35 years of cross-sectoral experience on sustainable development issues, working with a range of private, multi-lateral and not-for-profit organizations, including the World Bank and the International Finance Corporation in Washington DC. For the first decade of his career, Aidan primarily worked on environmental issues, within an international consulting company, a multinational manufacturing company and at the World Bank. He then shifted his focus to social responsibility and accountability issues, with a strong emphasis on the extractive industries for almost two decades. As COO, he is connected into all of ICMM's work on environmental matters, social responsibility, governance and innovation.

## **REMI PIET**

### **CEO at Embellie Advisory**

Remi Piet is Senior Partner at Embellie Advisory, a boutique consultancy founded in Doha, Qatar in 2013 that provides ESG and above-the-ground risk analyses, local content solutions as well as community/stakeholders agreements facilitation to ensure the social license to operate of energy and mining projects in Africa, the Middle East and the Americas. Prior to leading Embellie Advisory, Remi held successful tenures at the Energy Finance division of the United Nations Environment Programme (UNEP) as well as at several universities (HEC Paris, Qatar University, University of Miami).

Remi has worked on projects in more than 60 countries, designing ESG strategies, community suppliers programs and local content capacity building initiatives. He is a published author in the field of energy security and local content development.

Remi received a PhD in Political Economy from the University of Miami, a MBA and a MA in International Development from Laval University (Canada) and a Masters in Economics from Universite Paris La Sorbonne.

Embellie Advisory operates in key energy jurisdictions around the world, with regional offices in Maputo, Doha, Paris, Miami and Lima. Embellie Advisory's senior executives regularly advise global companies in the step-by-step implementation of their strategy in emerging markets, ensuring the sustainable integration of their operations, among communities and together with local political and economic actors.

Embellie Advisory (EA) tailors its consulting services to help companies meet the challenges they face in Emerging Markets (license to operate, risk assessment, stakeholder management, consortium management), translating their international ambitions and goals into concrete sustainable achievements.
